

AUTHOR INDEX

Vol. 54 (1963)

- | | | | |
|--------------------------------|---------------|----------------------------------|--------------------|
| Akashi, Akira (明石 章) | 47 | Takehi, Hirotake (笥 弘毅) | 497 |
| Akasu, Fumio (赤須文男) | 27 | Kawashima, Hiroshi (川島 渥) | 39, 433 |
| Aoki, Ken (青木 健) | 213 | Kimura, Yanagi (木村やなぎ) | 155, 163 |
| Aoshima, Michiko (青島迪子) | 503 | Kishi, Sanji (岸 三二) | 261 |
| Araki, Fumio (荒木文雄) | 1 | Kosaki, Goro (神前五郎) | 119 |
| Baba, Tsuneo (馬場恒男) | 105, 171, 213 | Koyama, Shin (小山 真) | 11, 19 |
| Caputo, Antonio | 131 | Kume, Fumihiro (久米文弘) | 443 |
| Endo, Hideya (遠藤英也) | 443 | Kurata, Yoriaki (倉田自章) | 275 |
| Ezoe, Miyo (江副みよ) | 311 | Kuru, Masaru (久留 勝) | 119 |
| Fujii, Setsuro (藤井節郎) | 85 | Makino, Sajiro (牧野佐二郎) | 149, 155 |
| Fujiwara, Fumiko (藤原史子) | 311 | Marcante, Maria Luisa | 131 |
| Fujiwara, Seiki (藤原誠喜) | 311 | Matsumura, Tomohiro (松村智弘) | 433 |
| Fukui, Ken'ichi (福井謙一) | 109, 401 | Matsuzawa, Tokihiro (松沢時弘) | 189 |
| Fukuoka, Fumiko (福岡文子) | 281 | Mifuchi, Ichiji (三淵一二) | 205 |
| Haga, Bin (芳賀 敏) | 85 | Minowada, Jun (箕和田 潤) | 59 |
| Hano, Kotobuki (羽野 壽) | 47 | Misu, Yoshihiko (三須良彦) | 213 |
| Harada, Yoshio (原田喜男) | 239, 251 | Miyaji, Tetsuhiko (宮地哲彦) | 39 |
| Hayashi, Seigoro (林 清五郎) | 381 | Miyawaki, Hideo (宮脇英夫) | 391 |
| Higashi, Satoru (東 悟) | 481 | Miyazaki, Seiji (宮崎誠示) | 353 |
| Hirai, Hidematsu (平井秀松) | 177 | Miyoshi, Isao (三好勇夫) | 427 |
| Hiraki, Kiyoshi (平木 潔) | 225, 427 | Mizota, Shigeru (溝田 茂) | 71 |
| Hori, Samuel H. (堀 浩) | 189 | Mizukami, Tetsuji (水上哲次) | 353 |
| Hosoi, Masaru (細井正春) | 205 | Moore, George E. | 59 |
| Hozumi, Motoo (穂積本男) | 281, 497 | Mori, Kazuo (森 和雄) | 415 |
| Imamura, Akira (今村 詮) | 109, 401 | Mori, Masahiko (森 昌彦) | 433 |
| Inui, Naomich (乾 直道) | 331 | Mori, Shigeki (森 茂樹) | 239, 251 |
| Irino, Shozo (入野昭三) | 225, 427 | Moriwaki, Ayako (森脇絢子) | |
| Isaka, Hidehiko (井坂英彦) | 177 | | 217, 323, 379, 473 |
| Ishii, Mieko (石井美枝子) | 213 | Murata, Iwao (村田石雄) | 39 |
| Itakura, Chitoshi (板倉智敏) | 501 | Nagata, Chikayoshi (永田親義) | 109, 401 |
| Itakura, Katsuaki (板倉克明) | 93 | Nakahara, Waro (中原和郎) | 281 |
| Iwanami, Yasuo (岩波泰夫) | 171 | Nishida, Mikio (西田幹夫) | 205 |
| Iwata, Heitaroh (岩田平太郎) | 47 | Nishizuka, Yasuaki (西塚泰章) | 391 |
| | | Ohta, Akihiro (太田明広) | 221 |
| | | Okamoto, Yoshihiro (岡本吉弘) | 39 |
| | | Okuda, Hiromichi (奥田弘道) | 85 |

INTERIM TITLE INDEX

Vol. 54 (1963)

- Alkylating group**, quinone derivatives containing. Antitumor effect of..... 381
- Amine**, N-nitrosodimethyl-, malignant tumor induced in mice by feeding 465
- Aminoazo dye amine-N-oxide** as a possible intermediate metabolite preceding azo dye-protein binding..... 195
- _____, preceding N-demethylation and *ortho*-hydroxylation 195
- Anticancer agents**, effect of administration before, during, or after surgical operation71
- _____, influences of, on the activities of liver catalase, uricase, and xanthine oxidase in normal and tumor-bearing mice47
- Antigenic protein** of rat ascites hepatoma cells. Specificity of..... 177
- Antigens**, cell-surface, of rat ascites tumors examined by fluorescent antibody technique..... 137
- _____, human cancer. Examination by gel diffusion method93
- Antitumor agents**. Determination of resistance index of tumor cells to..... 323
- _____, *in vitro* induction of drug resistance of Yoshida sarcoma to... 473
- Antitumor effect** of quinone derivatives containing alkylating group..... 381
- _____, screening. Primary cell culture of rat ascites hepatoma as a tool for..... 217
- Ascites**, Ehrlich, cells. Colorimetric assay of Eosin uptake by..... 497
- Ascites hepatoma**, rat, cells. Specificity of antigenic proteins of 177
- _____, —, effect of corticosteroids on27
- _____, —, primary cell culture of, as a tool for antitumor screening 217
- Ascites leukemia** in mice. A new strain ofH-18
- Ascites sarcoma**, MN, alteration of virulence of, after continuous culture *in vitro* 295
- _____, MN, T-strain of mouse. Long-term culture *in vitro* of 289
- Ascites tumor**, Ehrlich, biological properties of, to malignancy..... 311
- _____, —, cells, humoral factors in rat serum affecting the protein metabolism of19
- _____, —, cells. Incorporation of polymerized deoxyribonucleic acid into the nuclei of11
- _____, —, subcutaneously transplanted. Growth-promoting and -inhibiting substances extracted from..... 1
- Ascites tumors**, rat, cell-surface antigens of, examined by fluorescent antibody technique..... 137
- Asparaginase** in the liver of rats fed carcinogens. Paper electrophoretic studies on 269
- _____, in the liver of rats fed 4-dimethylaminoazobenzene. Paper electrophoretic studies on 261
- Autoradiography** of ¹⁴C-labeled 4-dimethylaminoazobenzene. Intrahepatic topographical distribution of protein-bound dye revealed by 105
- _____, determination of deoxyribonucleic acid synthesis by, in polyoma virus infection59
- Azobenzene**, 4-dimethylamino-, ¹⁴C-labeled. Intrahepatic topographical distribution of protein-bound dye as revealed by autoradiography with 105

_____, _____, fed to rats. Paper electrophoretic studies on asparaginase in the liver of rats	261
_____, _____, amine-N-oxide, dye-protein binding in the animals administered with, and toxicology of ...	455
Azo dye-protein binding. Aminoazo dye amine-N-oxide as a possible intermediate metabolite preceding	195
Biological action of 4-nitroquinoline 1-oxide and 4-hydroxyaminoquinoline 1-oxide, and their carcinogenicity.....	443
_____ properties of Ehrlich ascites tumor to malignancy, appraisal of.....	311
Butter Yellow. Rat liver modified by prolonged feeding of.....	105
Cancer, lung, in rats. Induction and transplantation of	415
Carbon tetrachloride and <i>dl</i> -ethionine. Effect of pretreatment with, on 2-acetamidofluorene and indole tumorigenesis in rats.....	339
Carcinogenic action of 4-hydroxyaminoquinoline 1-oxide	487
_____ activity of 4-nitroquinoline 1-oxide and some aromatic hydrocarbons	401
Carcinogenicity of 4-hydroxyaminoquinoline 1-oxide	221
_____ of 4-nitroquinoline 1-oxide and 4-hydroxyaminoquinoline 1-oxide... ..	443
Carcinogens. Paper electrophoretic studies on asparaginase in the liver, and in fetal and regenerating liver of rats and mice	269
Carcinomas, gastric. Deoxyribonucleic acid content in	331
Carcinostatic liver factor. Quantitative studies on the fractionation of	281
Carzinophilin, cytological effect of, on HeLa cells	163
Catalase activity, an improved method for estimation of, in the liver.....	85
_____ and cholinesterase activities, influence of tumor on, of the liver of host animal	503
_____, uricase, and xanthine oxidase, activities of, in the liver of normal and tumor-bearing mice, Influences of anti-cancer agents on	47
Cell culture, primary, of rat ascites hepatoma as a tool for antitumor screening... ..	217
Cell strain, permanent. Establishment of MN-lymphosarcoma as, in tissue culture	251
Cellular membrane treated with Tween 80 <i>in vitro</i> . Transport of ¹⁴ C-labeled nitrogen mustard N-oxide through.....	171
Charge transfer, quantity of, of 4-nitroquinoline 1-oxide and some aromatic hydrocarbons	401
Chick embryo extracts. Isolation of growth-promoting substances from	119
Chloroleukemia, human. Intracytoplasmic virus-like particles in	481
Cholinesterase and catalase activities of the liver of host animal. Influence of tumor on	503
Cholanthrene, 20-methyl-. Cell-free transmission of RF mouse leukemia induced by	225
Chromosomes of venereal tumors of the dog	149
Corticosteroids, growth-inhibiting effect of, on rat ascites hepatoma.....	27
Cytodiagnosis of stomach cancer. Suggested use of magnetic stirrer technique for	213
Cytological effect of inorganic compounds on the MTK-sarcoma III <i>in vivo</i>	155
_____ of Mitomycin-C and carzinophilin on HeLa cells	163
N-Demethylation. Aminoazo dye amine-N-oxide as a possible intermediate metabolite preceding.....	195
Deoxyribonucleic acid, changes of π -electron distribution of, after alkylation	109
_____, possible relation to the biological effect	109
_____, content of, in four gastric carcinomas and their metastatic lesions	331

_____, polymerized. Incorporation into the nuclei of Ehrlich ascites tumor cells	11
_____, synthesis in polyoma virus infection, as determined by autoradiography	59
Drug resistance, <i>in vitro</i> induction of, of Yoshida sarcoma to antitumor agents ...	473
_____, occurrence of, during experimental therapy on rats bearing Yoshida sarcoma with nitrogen mustard derivatives	379
Dye-protein binding in the animals administer with 4-dimethylaminoazobenzene amine-N-oxide	455
Ehrlich ascites cells, colorimetric assay of Eosin uptake by	497
_____, tumor, biological properties of, to malignancy	311
_____, subcutaneously transplanted. Growth-promoting and -inhibiting substances extracted from	1
_____, cells. Humoral factors in rat serum affecting the protein metabolism of	19
_____, cells, incorporation of polymerized deoxyribonucleic acid into the nuclei of	11
π-Electron distribution of deoxyribonucleic acid, changes of, after alkylation ...	109
Electron microscopic demonstration of virus particles in leukemic tissues	225
Electron microscopy. Demonstration of intracytoplasmic virus-like particles in human chloroleukemia	481
Electrophoretic, paper, studies on asparaginase in the liver of rats fed carcinogens	269
_____, _____, studies on asparaginase in the liver of rats fed 4-dimethylaminoazobenzene	261
Eosin uptake, colorimetric assay of, by Ehrlich ascites cells	497
<i>dl</i>-Ethionine, effect of pretreatment with, upon 2-acetamidofluorene and indole tumorigenesis in rat	339
Fluorene, 2-acetamido-, and indole tumorigenesis. Effect of pretreatment with carbon tetrachloride and <i>dl</i>-ethionine ...	339
Fluorescent antibody technique. Cell-surface antigens of rat ascites tumors examined by	137
Gel diffusion method. Examination of human cancer antigens by	93
Glucose-6-phosphate dehydrogenase, localization of, in human tumors	433
Growth-promoting substances isolated from chick embryo extracts	119
HeLa cells. Cytological effect of Mitomycin-C and Carzinophilin on	163
Histochemical changes in liver tissues of tumor-bearing rats	189
Humoral factors in rat serum affecting the protein metabolism of Ehrlich ascites tumor cells	19
Hyaluronic acid-protein complex isolated from Rouse sarcoma. Structure of the protein in	131
Hydrocarbons, aromatic. Charge transfer and carcinogenic activity of	401
_____, carcinogenic, Experimental tumors induced by subcutaneous administration of	39
<i>ortho</i>-Hydroxylation. Aminoazo dye amine-N-oxide as a possible intermediate metabolite preceding	195
Hyperplastic nodules and acini in mammary glands of mice. Particles resembling the mammary tumor virus in	391
Indole tumorigenesis in rat. Effect of pretreatment with carbon tetrachloride and <i>dl</i>-ethionine on	339
Inorganic compounds, cytological effect of, on the MTK-sarcoma III <i>in vivo</i>	155
Leukemia, ascites, in mice. A new strain of	508
Liver factor, carcinostatic. Quantitative studies on the fractionation of	281
Liver, fetal and regenerating, of rats fed carcinogens. Paper electrophoretic studies on asparaginase in	269
_____, tissues of tumor-bearing rats, histo-	

chemical changes in	189
Lung cancer in rats, induction and trans- plantation of	415
Lymphosarcoma, MN, cells. <i>In vitro</i> cul- tivation of...	239
———, ———, establishment of, as a permanent cell strain in tissue culture	251
Mammary tumor virus , particles resembl- ing, in acini and hyperplastic nodules in mammary glands of mice.....	391
Mesenchymal tissue , relation of, to the development and growth of tumor.....	353
Metabolite , intermediate, preceding N- demethylation, <i>ortho</i> -hydroxylation, and azo dye-protein binding. Aminoazo dye amine-N-oxide as.....	195
Metastatic lesions , in four cases of gas- tric carcinomas, content of deoxyribonu- cleic acid in	331
Mice , Swiss, development of subcutaneous sarcoma in, after repeated injection of benzene in olive oil.....	427
—— fed with N-nitrosodimethylamine. Malignant tumors induced in	465
Mitomycin-C , cytological effect of, on HeLa cells	163
MN Ascites sarcoma T-strain of mouse. Long-term culture <i>in vitro</i> of	289
———, alteration of viru- lence of, after continuous culture <i>in vitro</i>	295
MN-Lymphosarcoma cells. <i>In vitro</i> cul- tivation of	239
———, establishment of, as a permanent cell strain in tissue culture	251
Mouse ascites leukemia , a new strain of	508
Mouse liver , asparaginase in. Paper elec- trophoretic studies on, after feeding carcinogens	269
Mouse mammary glands , acini and hyper- plastic nodules in. Particles resembling the mammary tumor virus in.....	391
Mouse MN ascites sarcoma T-strain. Long-term culture <i>in vitro</i> of.....	298
MTK-sarcoma III , cytological effect of in- organic compounds on, <i>in vivo</i>	155
Neoplastic tissues , nitrate reductase in... 275	
Nitrate reductase in neoplastic tissues ... 275	
Nitrogen mustard derivatives, experiment- al therapy with, on rats bearing Yoshida sarcoma, occurrence of drug resistance during experimental therapy with.....	379
———, transformation of resis- tance of Yoshida sarcoma to	365
——— N-oxide, ¹⁴ C-labeled, transport of, through cellular membrane treated with Tween 80 <i>in vitro</i>	171
Polyoma virus infection. <i>In vitro</i> studies on	59
Protein , antigenic, specificity of, of rat ascites hepatoma cells.....	177
———bound dye, intrahepatic topo- graphical distribution of, as revealed by ¹⁴ C-labeled 4-dimethylaminoazobenzene autoradiography	105
——— metabolism of Ehrlich ascites tu- mor cells. Humoral factors in rat serum affecting	19
———, structure of, in the hyaluronic acid-protein complex isolated from Rous sarcoma	131
Quinoline, 4-hydroxyamino-, 1-oxide. Car- cinogenic action of.....	487
———, ———, 1-oxide. Car- cinogenicity of	221, 443
Quinoline, 4-nitro-, 1-oxide , carcinogen- icity of	443
———, ———, 1-oxide and some aro- matic hydrocarbons. Quantity of charge transfer and carcinogenic activity of.....	401
———, ———, 1-oxide. Toxohormone- like substances in the respiration-defi- cient mutant of <i>Saccharomyces cerevisiae</i> induced by.....	205
Quinone derivatives containing alkylating group. Antitumor effect of.....	381
Rat ascites hepatoma, primary cell culture of, as a tool for antitumor screening.....	217
——— hepatoma cells, Specificity of	

antigenic proteins of	177
——— tumors, cell-surface antigens	
of, examined by fluorescent antibody	
technique	137
Rat liver , asparaginase in, after feeding	
4-dimethylaminoazobenzene. Paper ele-	
ctrophoretic studies on	261
——— modified by prolonged feeding of	
Butter Yellow	105
———, paper electrophoretic studies on	
asparaginase in, after feeding carcino-	
gens	269
Rat lung cancer . Induction and transplanta-	
tion of	415
Rats bearing Yoshida sarcoma. Occurrence	
of drug resistance during experimental	
therapy with nitrogen mustard deriva-	
tives	379
———, tumor-bearing. Histochemical	
changes in liver tissues of	189
Resistance , drug, of Yoshida sarcoma to	
antitumor agents <i>in vitro</i>	473
——— index of tumor cells to anti-	
tumor agents. Determination of.....	323
———, transformation of, of Yoshida	
sarcoma to nitrogen mustard	365
RF mouse leukemia , cell-free transmission	
of, induced by 20-methylcholanthrene...	225
Rouse sarcoma . Structure of the protein	
in the hyaluronic acid-protein complex	
isolated from.....	131
Saccharomyces cerevisiae , respiration-	
deficient mutant of, induced by 4-nitro-	
quinoline 1-oxide. Toxohormone-like	
substances in.....	205
Sarcoma III , MTK-. Cytological effect of	
inorganic compounds on, <i>in vivo</i>	155
———, rous. Structure of the protein in	
the hyaluronic acid-protein complex iso-	
lated from	131
———, subcutaneous. Development of,	
in Swiss Mice given repeated injection	
of benzene in olive oil	427
———, Yoshida, <i>in vitro</i> induction of	
drug resistance of, to antitumor agents...	473
———, Yoshida, transformation of resis-	
tance of, to nitrogen mustard.....	365
Swiss mice , development of subcutaneous	
sarcoma in, after repeated injection of	
benzene in olive oil.....	427
Tissue culture . Establishment of MN-	
lymphosarcoma as a permanent cell	
strain in	251
Toxohormone . Application of an improved	
method for the estimation of liver cata-	
lase activity to the study of	85
———-like substances in the re-	
spiration-deficient mutant of <i>Saccharo-</i>	
<i>myces cerevisiae</i> induced by 4-nitro-	
quinoline 1-oxide.....	205
Toxicology of 4-dimethylaminoazobenzene	
amine-N-oxide	455
Tumor cells , resistance index of, to anti-	
tumor agents. Determination of.....	323
Tumor , growth and development of. Rela-	
tion of mesenchymal tissue to.....	353
———, influence of, on catalase and cho-	
linesterase activity of the liver of host	
animal	503
———, malignant. Growth-promoting and	
-inhibiting substances of	1
Tumorigenesis of 2-acetamidofluorene and	
indole. Effect of pretreatment with car-	
bon tetrachloride and <i>dl</i> -ethionine on...	339
Tumors , dog venereal. Chromosomes of...	149
———, experimental, induced by subcuta-	
neous administration of carcinogenic	
hydrocarbons	39
———, human. Localization of glucose-6-	
phosphate dehydrogenase in.....	433
———, malignant, induced in mice fed	
with N-nitrosodimethylamine	465
Tween 80 . Transport of ¹⁴ C-labeled nitro-	
gen mustard N-oxide through cellular	
membrane treated with.....	171
Uricase , catalase, and xanthine oxidase,	
activities of, in the liver of normal and	
tumor-bearing mice. Influences of anti-	
cancer agents on	47
Venereal tumors of the dog. Chromosomes	
of	149
Virus , mammary tumor, particles resembl-	

ing, in acini and hyperplastic nodules in mammary glands of mice	391	cancer agents on	47
—— particles, electron microscopic de- monstration of, in leukemic tissue of RF mouse leukemia	225	Yoshida sarcoma, <i>in vitro</i> induction of drug resistance of, to antitumor agents...	473
——-like particles, intracytoplasmic, in human chloroleukemia	481	——, transformation of re- sistance of, to nitrogen mustard.....	365
Xanthine oxidase, catalase, and uricase, activities of, in the liver of normal and tumor-bearing mice. Influences of anti-		——, rats bearing. Occur- rence of drug resistance during experi- mental therapy on, with nitrogen mus- tard derivatives.....	379
